# Drive Efficiency with Easy-first Inbound Tools

Intelligent Call Routing

Achieve higher first-call resolution using advanced self-service IVR and automatic call distribution (ACD) that routes calls based on priority, agent skill levels, time of day, language preferences, and more.

Queue Panel

The Queue Panel allows agents and supervisors to efficiently manage all aspects of a queue. From agent coaching to call handling, it's your visual, intuitive interface to handle all daily call center operations efficiently through a single interface.

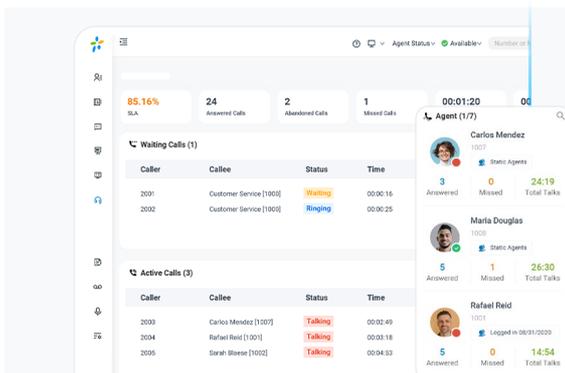

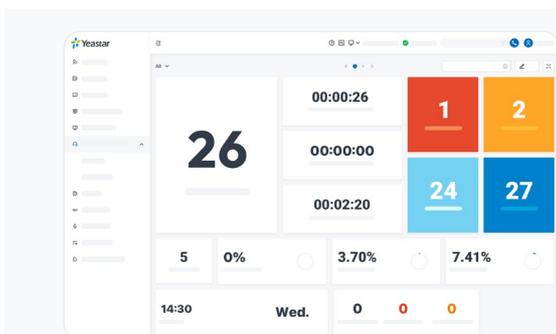

Key functionality:

- ✅ Manage agent status: login/out, pause/unpause
- ✅ Handle queued calls: drag-and-drop distribute & transfer
- ✅ Live agent coaching: click to listen-in, whisper, barge-in monitor
- ✅ Track & label missed call processing results
- ✅ Display real-time active/waiting queued call list
- ✅ Display real-time per agent & aggregated performance data

Real-time Wallboard

The Wallboard aggregates your call center KPIs and metrics into an intuitive display. With real-time performance data per queue and the sum of all queues, you can easily spot the emerging trend at a glance at any time and take proactive actions.

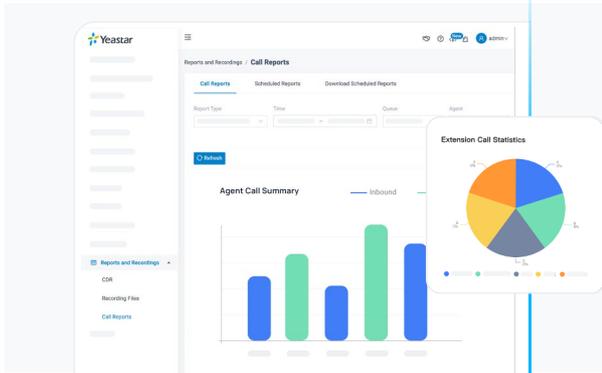

Key functionality:

- ✅ Visualize 17 key metrics including Missed Rate, etc.
- ✅ Track real-time stats of one or multiple queues
- ✅ Intuitive widget-based view and informative chart view
- ✅ Automatic notification on SLA threshold

Quality Monitoring & Compliance

Record calls for legal and quality monitoring. Train agents live with Listen-in and Whisper and use Barge-in to take over when needed. Ensure every interaction of your agents is up to standard.

# Reach Customers with Seamless Outbound Calling Capabilities

Built-in Auto Dialers

Automate the dialing process and connect agents a live prospect efficiently. Let your agents handle interactions that require a human touch, while routing the rest to pre-configured destinations like IVR for maximum outreach.

3 Auto dialers for every need:

- **Progressive Dialer**: Dial on a one-to-one basis to establish high-quality connections between leads and agents.
- **Power Dialer**: Optimize call volumes and agent availability by adjusting dialing rates to minimize dropped or abandoned calls.
- **Agentless Dialer**: Connect with customers for simple messages or telemarketing, without requiring live agent availability. This enables rapid outreach to a broad audience.
