

Yeastar Drives Seamless Multi-Office UC Transformation for P+HS Architects

About P+HS Architects

P+HS Architects is an award-winning UK practice with over 40 years of experience in healthcare and residential design. **With offices in Stokesley, Leeds, Newcastle, and Manchester, and a team of over 120 employees**, the firm is recognized for delivering high-quality, socially impactful projects across the country.

Challenge	Yeastar Solution	Results
Five years on 3CX with poor service – unreliable system and limited support affected daily operations.	Yeastar P-Series Cloud Edition, Enterprise Plan	✔ Zero-downtime nighttime migration – restored reliability and service quality.
Four sites needing one platform – offices across the UK required consistent communication.	Centralized UC platform with unified IVR and user management.	✔ One cloud platform for all offices – reliable multi-site communication.
After-hours migration required – transition needed without disrupting business hours.	Carefully scheduled migration completed out of hours.	✔ Seamless overnight cutover – minimal disruption to operations.
High Renewal Costs – retain existing handsets while enabling flexible communication.	Retained Yealink T46 handsets + Linkus UC Clients	✔ Lower cost & enhanced mobility – upgraded communication without extra devices.

Team Favorites

Linkus App Usability

staff enjoy the flexibility of mobile and desktop communication.

Intuitive interface

web UI makes daily tasks faster and simpler, including easy IVR management.

Quick adoption

team found the new system easy to learn and start using immediately.

Reliable multi-site experience

smooth, consistent connections across all offices.

We are very pleased with the transition from 3CX to Yeastar. No features were lost, and we've certainly gained more. The web interface is much easier to use compared to 3CX, and we've mostly started using Linkus over physical handsets.
