# Why Choose Yeastar

We spent almost six months researching this market before selecting this product, and we could not find another platform that had all the features and such a responsive development team. We receive new feature releases every month, which we're always excited to see, and the pricing is very competitive.

— Amruth Laxman  
CEO at 4Voice LLC

# Growth Highlights

Over the past year, 4Voice has achieved steady growth by combining a robust, flexible platform with innovative features that enhance both existing and new customer experiences. Rich functionality and customizable configurations have strengthened client loyalty, while advanced capabilities—such as outbound messaging, self-management options, and call-forwarding—have attracted new business.

Supported by Yeastar-enabled demos and tailored solutions, 4Voice demonstrates its “customer-first” approach, helping retain over 20 existing clients and win around 50 new customers in 2025. This balance of reliability and innovation creates a stable, scalable foundation for 4Voice’s continued expansion.

<b>350+ Seats Migrated from Cisco</b> – Delivered in One Weekend	<b>Turbocharged Growth at Scale</b> – Achieved in one year
<b>Fully Customized Solutions</b> – From UI to built-in provisioning	<b>100% Customer Retention</b> – All on 3-year contracts

# Behind the Results

With Yeastar P-Series Cloud Edition, 4Voice evolved from a white-label reseller to a distributor, enabling fully customized cloud solutions. Leveraging Yeastar's customized configuration templates and lean onboarding, 4Voice completed client migrations in just one weekend, minimizing downtime and disruption.

Combined with responsive support, easy demos, competitive pricing, and ongoing updates, 4Voice delivered seamless upgrades, enhanced management, and future-proof deployments, boosting customer satisfaction and driving growth.

*"On the new customer side, we have used the Yeastar demo to win most of our new business in 2025. The demo was well received, and feedback has been positive."*

*"And also the ability to offer very competitive pricing, right?."*

*"I think that was a big selling point is, now you can trust a whole team that's behind this product, not just yourself."*

*"In most systems, phone provisioning is very limited to a few choices, but on Yeastar, if we wish, we can push an entire custom configuration to the phone."*

# A Solid Platform

## A good blend of a standard platform with opportunity to apply innovation to create a unique solution for customers.

— Amruth Laxman  
CEO at 4Voice LLC
